1

Develop European Network

Main objectives

2

Create and develop New Tools for long term information sharing by end-users (dissemination)

Project overview

WINETWORK project has the ambition to stimulate collaborative innovation in the **wine sector**.

The project will implement a **methodology** that has been successful in promoting demand-driven innovations during previous regional and European projects.

The main topic of the network is **the control of 2 diseases** that jeopardise the future grape production.

Grapevine Trunk Diseases

Flavescence Dorée

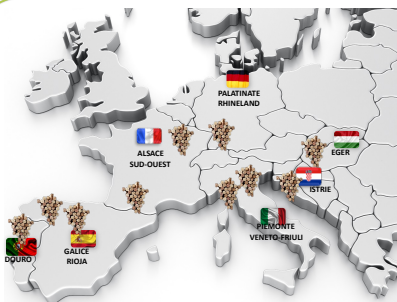

Fast spreading across Europe!

Severe financial implications/losses and Source of anxiety and questions among wine growers

A relevant consortium
10 wine-producing areas – 7 countries

11 Partners
facilitator agents, scientific working group

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 652601
